Career

2021- Tulleys farm shocktoberfest

An intensive immersive experience that requires you to stay in character for 2 hours at time. For this role you need to have high physicality ,improvisational and vocal ability.

2022-2023- Thorpe Actor (ghost train, walking dead and fright nights)

Based within the Entertainments dept working outside in all weathers, I would work across a variety of performance roles delivering immersive and memorable experiences for the guests visiting Thorpe Park. Delivering quick thinking improvised speeches, thrilling scripts and characters. To our vibrant, uplifting

and equally terrifying shows. To then tap into frightful characters too roam through the audiences in order to scare them to their wits end in the highly publicised fright night event.

2022-2023- Lapland UK

Acted as an ambassador and role model to 'keep the magic alive' by providing an exceptional guest experience through performance and always seeking new ways to create magical moments for our guests. By embodying an elf cheerful persona throughout the Christmas season. This is a highly immersive experience where your character can not falter as you guide the small folk to see Father Christmas. You must have good improvisational skill as there is no script to the small folk questions.

2024-Chessington world of adventures

Based in the entertainments department within Chessington Hotel. Where I work in a variety of roles that included a mini shows performer, mascot performer, presenter with routine dances.

2024- Absolutely fabulous events group LTD

Emerging as Pepper the elf for a fun filled festive show in Father Christmas' very own workshop. Alongside Pepper I will also split my time being Bumble the security elf, as well as cover for other principle roles including Mother Christmas. This role was a mixture of scripted work as well as improvisation.
